WHAT WE DO

Belle Trailers is a specialist Car Transporter manufacturer based in Essex. We have 2 manufacturing sites, a 3 acre site in Gt Dunmow and a 3 acre site in Wethersfield (9 Miles from Gt Dunmow).

Established in 1991, Belle Trailers designs and builds a bespoke range of Car Transporters. Our range starts at a 1 car and goes through to an 8 Car Transporter which are designed and manufactured here onsite.

Our designs are ever evolving with constant innovation to suit the needs of both the major national operators and single person operators. See pages 16.0 - 16.6 for more information.

AFTER SALES

We offer a full range of aftersales services, from Ministry Inspections to LOLER's. All work is done in our fully equipped workshops here in Dunmow, including full MOT preparation and presentation facilities.

We can provide and administrate a maintenance schedule tailor made for an individual client's fleet or we can work with their existing service requirements.

The services we provide cover the whole range, from a routine engine service through to scheduled vehicle inspections and MOTs.

Belle

T R A I L E R S

Belle's parts team have a vast knowledge of most types of transporter and hold a wide range of stock for spares and repairs for both car transporters and many other trailers.

If you need something give us a call,
we are happy to help.

Tel : 01371 876111

ROLFO

Belle Trailers are the only official supplier in the UK for ROLFO parts and Aftersales. We stock a large selection of parts for most ROLFO Transporters operating in the UK as well as providing full aftersales and warranty support.

Please call the office with your ROLFO Car Transporter chassis number and we will help to identify any parts you may need.

ON SIZES

02 HYDRAULICS

Belle Hydraulics was formed in 1995 by Belle Trailers and manufacture onsite in Dunmow, Essex.

If you require a ram for a different vehicle than those shown, or for a conversion you wish to make, we can make them to order. You will need to be able to quote the details as per the diagram below.

The company:

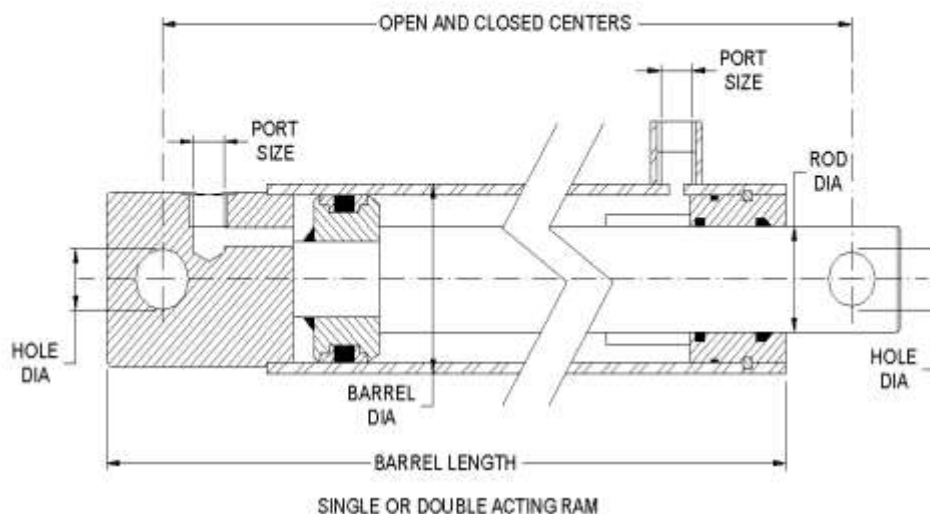

- Manufacturers new hydraulic cylinders.
- Refurbish existing cylinders where replacing the seals, replacing the rod or renewing the outer casing.
- Modifies cylinders for clients' specific requirements.

We can supply:

- Made up hose kits - produce emergency replacement hoses on site for any breakdowns.

We have fully equipped hydraulics shop holding:

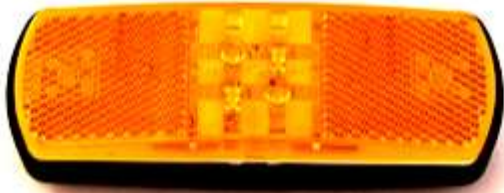

- Hydraulic hose - Hose ends - Adaptor - QRC couplings - Pneumatic fittings - Tube - Selection of Morris lubricants.

STANDARD PARTS

**TEALwash**

TEALwash is designed for use on many types of commercial vehicles including waste lorries, catering vans, emergency response vehicles, service vans and any other vehicle which requires hand hygiene on the move. Can be mounted either inside or outside the vehicle.

BT3644/2

12 volt 220 watt / 20 amp max.

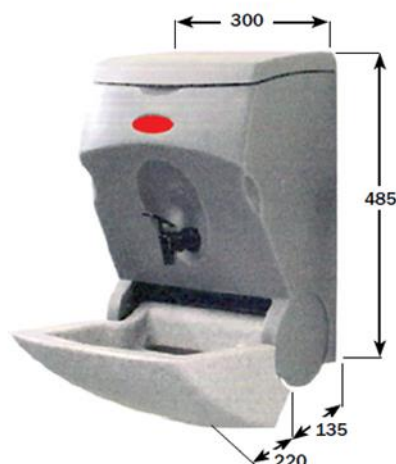

wgt. 4.70kg empty / 9.70kg full

Size: H485 x W300 x D355mm
(180mm clearance required above for lid operation)
5 litre capacity / 20 hand washes

Installation

Connect 2 x 4mm wires directly to the battery using the fuse holder supplied

- Bowl, tank & lid are double skinned in high impact resistant polyethylene
- Fully automatic operation – no separate switch needed
- Heater only operates when engine is running and battery fully charged – no drain on power
- Fast heating, 2-3 hot washes in 10 minutes
- 43/46°C ideal water temperature
- Fully opening lid for fast filling complete with 1 metre x 25mm flexible waste tube
- 'E' marked in compliance with the European EMC Automotive Directive 95/54/EC
- Soap & towel dispensers available – see page 109

**HANDEMAN**

HANDEMAN is designed for use on many types of commercial vehicles when fitting space is limited. Suitable for waste lorries, catering vans, emergency response vehicles, service vans and any other vehicle which requires hand hygiene on the move.

BT3644/3

12 volt 180 watt / 15 amp max.

wgt. 3.30kg empty / 5.50kg full

Size: H325 x W300 x D175mm
2.5 litre capacity / 10 hand washes

- Fully automatic
- 43°C ideal water temperature
- Unique waste water retaining bowl built to comply with Health & Safety Legislation for disposal of waste water
- Water level indicator
- Soap & towel dispensers available – see page 109

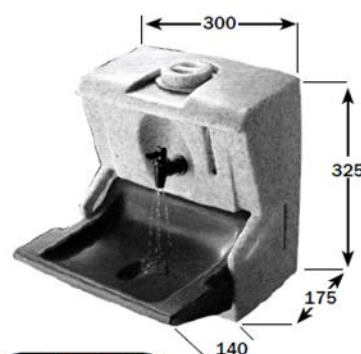

Also available:

HANDEMAN Low Power version HMP12 uses lighter socket.

Fitted with a 1.8 metre lead and DIN plug. It also has a handle for complete portability. Ideal for in-cab use.

HANDEMAN Portable Unit with excellent insulation properties of the HANDEMAN. The water will stay hot for up to 5 hours depending on the temperature of the pre-heated water used.

Supplied with mounting bracket and carrying handle. Ideal for many field and portable applications.

STANDARD PARTS

Fastcure 2000 Commercial Vehicle Adhesive Sealant

High-quality multi-purpose non-sag one-component polyurethane sealant that cures on exposure to atmospheric moisture to form a durable elastomer. Tried and tested in service for many years.

BT0821/1	— White	300ml cartridge
BT0821	— Black	300ml cartridge
BT0821/2	— Grey	300ml cartridge

- 12 cartridges per box
- One component formulation
- Elastic and non-corrosive
- Low odour
- Resistant to ageing and weathering
- Can be sanded and overpainted, 45-55mins. approx. tack free time 50% relative humidity
- Must be stored between 10°C and 25°C in dry conditions
- Product data sheet available upon request

Uses

Bonds to a wide range of substrates and is suitable for making permanent elastic seals of high adhesive strength

Suitable substrate materials include timber, metals, metal primers and paint coatings (two component systems), ceramic materials and plastic

Complete with nozzle

! Advice should be sought before using on transparent and pigmented materials that are prone to stress and cracking.

EPH FN PLANETARY WINCHES

Model EPH FN are hydraulic planetary winches. Designed for extend life and give best safe duty. These winches are built according with higher safety standards in compliance with Directive Machinery 2006/24/CE Harmonized EN 14492-1. The high efficiency planetary gear train assure fast payout and rewind winching operational and the innovative brake system, make these winches reliable and great for industrial applications.

FEATURES

- ☐ **COMPACT**
Hardened steel single stage planetary gear train
- ☐ **FAST WINCHING SPEED**
Fast payout and rewind
- ☐ **VERSATILE MOUNTING**
Designed for either foot or side mounting
- ☐ **LIGHT AND STRONG**
Body manufactured from hardened, special aluminium castings reduced weight and increased strength
Powder coat finished
- ☐ **MULTI-DISC PRESSURE RELEASED BRAKE**
Gives a reliable and effective full brake capacity

WINCHES RANGE

EPH 4500 FN	4.500 Kgs. (10.000 Lbs.)
EPH 5200 FN	5.200 Kgs. (11.460 Lbs.)
EPH 6200 FN	6.200 Kgs. (13.650 Lbs.)
EPH 6700 FN	6.700 Kgs. (14.770 Lbs.)

DRUM SIZE AVAILABLE

Standard: 200 mm (7.87 inch) for EPH 3600FN
Long: 252 mm (9.92 inch) for EPH/L 3600 FN
EPH 4500FN - EPH 5200FN - EPH 6200FN - EPH 6700FN

TOTALLY OIL COOLED

Gears and brake in oil bath for best performance, quiet operation and extended component life

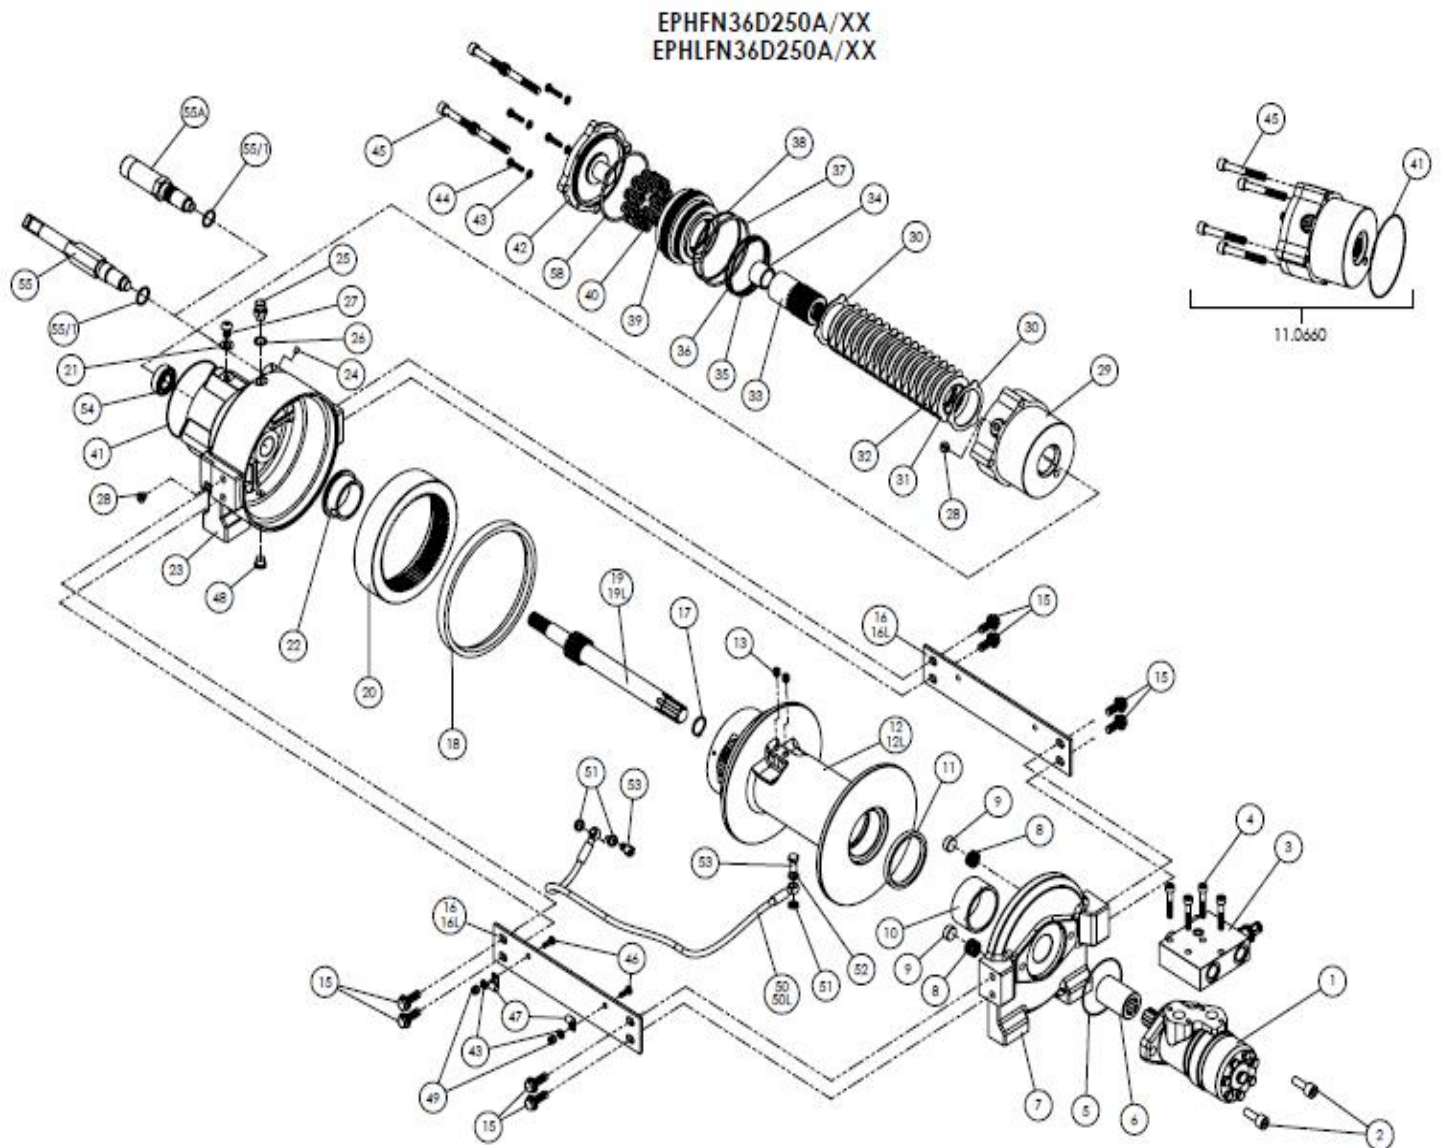

ACCESSORIES :

- ☐ Zinc plated heavy-duty roiller fairlead
- ☐ Zinc plated Cable tensioner
- ☐ Air clutch shifter - drum free spooling

OPEN TRAILER

Beavertail Trailer - Ideal for extra wide vehicles and commercial applications. Specially designed for customers with wider and lower ground clearance cars, this trailer mixes heavy duty performance with classy good looks.

- Strong chassis construction, hot dip galvanised after fabrication for complete protection
- HD Cast Bradley hydraulically damped coupling with Bradley 'Doublelock' Anti-theft lock
- Auto reverse braking to all wheels
- Rubber in compression beam axles
- 13" wheels with 195/50 low profile tyres or 10" wheels with 195/55 tyres to minimise bed height
- Full front and rear lighting system all via sealed one piece loom
- Spare wheel + Tyre
- 8' (2.5m) PRG SureGrip loading ramps (longer ramps optional)
- 2 Speed Manual Winch
- Hydraulic Tilt Operation (Tilt Bed)
- Phenolic coated commercial decking

LIGHTWEIGHT STEEL LOADING RAMPS

REVOLUTIONARY DESIGN

DURABLE

LIGHTWEIGHT

HIGH YIELD

For over 40 years the Car Transporter Industry has used Aluminium for the manufacture of Car Transporter Loading ramps – Aluminium is used to reduce the weight allowing a driver to lift the ramps in and out of a Transporter easily.

Although Aluminium has traditionally been used it is not the most ideal material due to its inherent problem of age hardening, causing cracks and its limited durability.

Steel is a far superior material, however historically the industry has not been able to use it due to the increased weight.

Belle Trailers has now designed and patented a steel loading ramp which is stronger and lighter than Aluminium. This Steel loading ramp, which has now been in production and service for 12 months will change the Industry.

NEW BUILD TRANSPORTERS

INNOVATION FOR 2018/19

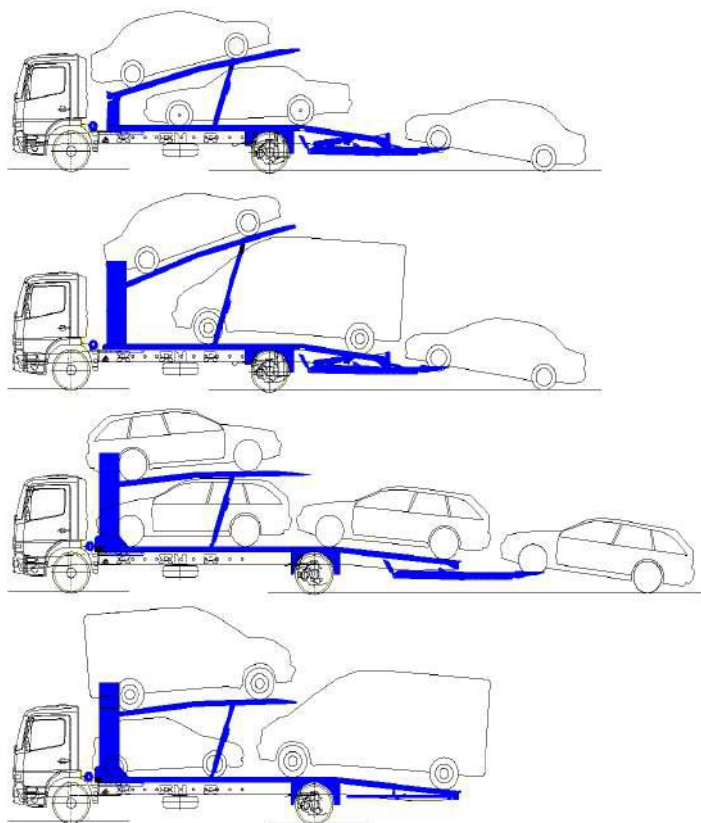

- NEW 8 CAR TOP DECK
- GALVANISED 2 RAM BEAVERTAIL RAMP, WITH IMPROVED LOADING ANGLE AND 3 STAGE OPTION
 - GALVANISED KICK UP RAMP
 - RESHAPED TOP DECK - FOR LOW SPOILER CARS
- HANDRAIL SYSTEM ADDED TO TOP DECK REAR & CATWALK
 - LARGE WINCH ROLLER LENGTH INCREASED

2018 SEES THE LAUNCH OF OUR **FULLY GALVANISED** TRANSPORTER RANGE

BENEFITS OF GALVANISING

- **INCREASED LONGEVITY** - CONTINUALLY PROTECTING STEEL AGAINST CORROSIVE ELEMENTS.
- **ECONOMICAL** - LESS MAINTENANCE
- **LONGER BODY LIFE** - ENABLES BODY SWAPS, GIVING A SECOND LIFE
- **SAFER** - DUE TO REDUCED CORROSION
- **INHERINTLY NON SLIP**

Belle 2/3/4 Car Transporter

Designed to replace a slide bed type transporter the Belle 2/3 car has a lower bed height and will operate in smaller spaces due to the hydraulic beavertail ramps.

Two options are available for the top deck:

- A fixed pivot point located behind the cab
- High pillars

Both options are available with Hydraulic beavertail and adjustable spec frame, or fixed back end and manual loading ramps.

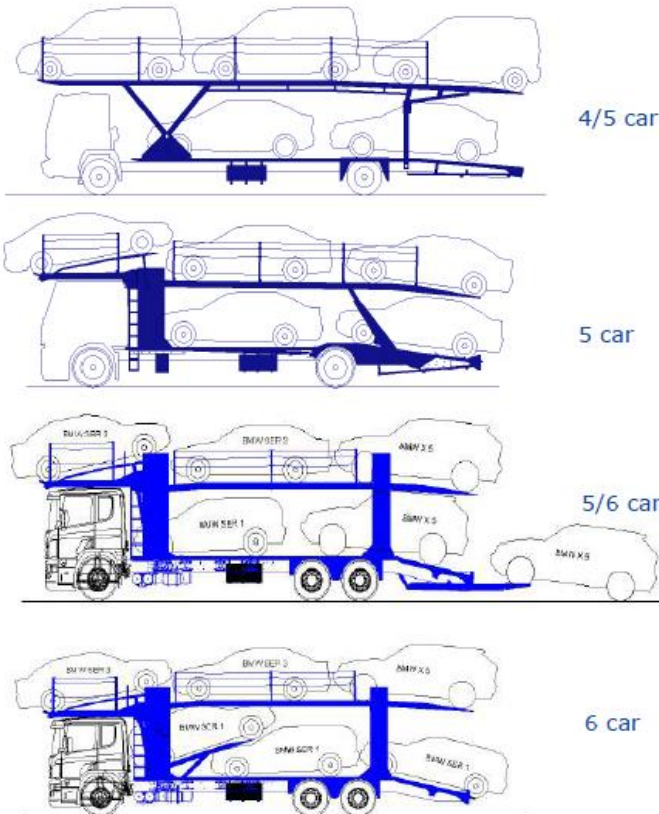

Please call for more information.

Chassis:

- Wheelbase 4.8 to 6.0 metres
- Sleeper or day cab
- 12 to 15 tonne
- PTO to be fitted by chassis supplier
- Belle to supply and fit pump

TRANSPORTERS

Belle 4/5/6 Car Transporter

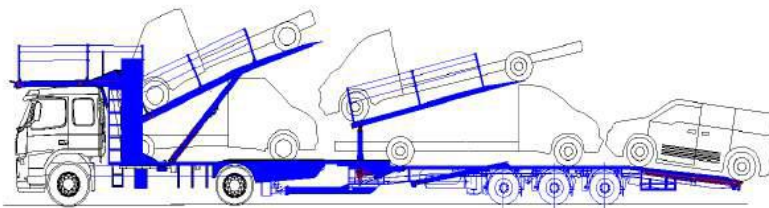

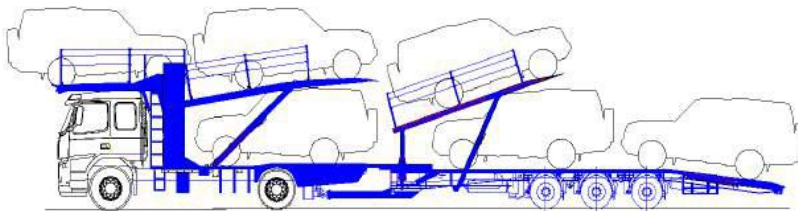

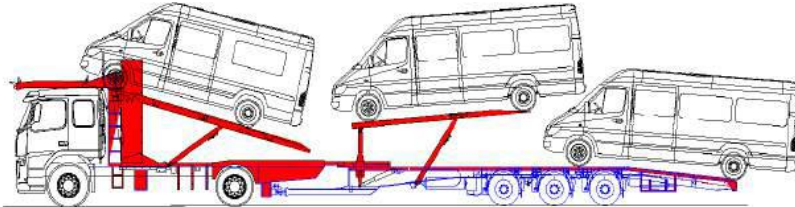

4/5 Car- This transporter is suitable for the carriage of four medium sized cars and five small cars. The top deck can be lowered for larger vans

5/6 Car- The transporter is suitable for the carriage of five medium sized cars, there are two options to apply a sixth car on a spec frame or a kick up ramp behind the cab. Beavertail ramp and spectacle frames are an option on these transporters.

Please call for more information

Chassis:

- Wheelbase 5.9 to 6.1 metres,
- Sleeper or day cab
- 8 tonne front axle
- PTO to be fitted by chassis supplier
- Belle to supply and fit pump

Belle 8 Car/Van Transporter

The Van carrier is suitable for the carriage of 8 various vehicles such as large cars, 4x4 vehicles and vans.

With fully lowering top decks this transporter has various transportation capabilities.

Please call us for more information.

Chassis

- Wheelbase 4.3 metres
- Sleeper or day cab
- 8 tonne front axle
- PTO be fitted by chassis Supplier
- Belle to supply and fit pump

16.5

Belle Rolfo Ego 11 car

The Belle Rolfo is very easy to load and unload and, thanks to the innovative configuration, marks the largest automotive payload available in the UK market place today. Due to continuous design and development and the feedback received from UK car carriers, the Belle Rolfo Ego continues to move with the times.

- Fully hot dip galvanised bodywork/decking
- High yield steel used in all decking and rigid superstructure
- BPW disc brakes to ensure safer braking
- Remote start/stop of tractor engine from trailer
- Ferry lashing points rigid and trailer
- Duplication of controls on the top rear rigid pillar
- Fully sliding top deck for easier load adjustment
- Ball coupling tow hitch
- Half-powered loading ramps with facility to pull in the last vehicle
- Height warning device trailer front pillar with in-cab beeper and light

Optional items:

- Wabco Opti-Turn helps reduce tyre consumption on trailer and reduces the turning circle
- Wabco Smart Board (mileage counter, axle load, brake lining wear, inclination)
- Fully powered loading skids
- Electro-hydraulic power pack

Saving money:

- Considerably reduced costs of body swap up to 70% if compared to a traditional painted Transporter
- Higher load factor, independent deck 9/10 allows easier adjustment and loading of larger vehicles
- Self locking cylinders: only three air locks to be operated and maintained
- Fuel saving with a tested start/stop of tractor engine
- Efficient hydraulic system allowing a low 650rpm with PTO engaged reducing fuel consumption while loading and unloading
